

2009-2010 State Community Service Project

Buckner Children's Home

Buckner Children's Home is located in Dallas, Texas. It is a diverse global ministry to children. Their mission is to be a multi-service agency dedicated to the restoration and healing of individuals and the family. Services include foster care, volunteer mission opportunities, transitional housing services, international adoption, and support programs for children living in orphanages in other countries.

FCCLA has chosen to support Buckner Children's Home by asking chapters to create and donate personal hygiene boxes. Boxes may include the following items: toothpaste, tooth brush, deodorant, body wash, shampoo, conditioner, q-tips, baby wipes, women products, and lotion. Please have these boxes a shoe box size. Turn in your pre-packed boxes at the community service table during the 2010 State FCCLA Leadership Conference in Dallas.
